Dear Hubers

We're on the last lap of our journey around Japan begun last Sat. from ~~Tokyo~~. Met J. at Ueno Station (with Nora's assistance) rode all day to Kanazawa to Jake + Junko [illegible]. They gave us the VIP treatment + a royal time and sent us on our way to Ralph + Stella Cox at ~~Nagoya~~ Takamatsu, about 5 hrs by train + ferry on [illegible] across the Inland Sea of Japan. A Team "Helping Hand" (short term) Hawaiian (Elaine) meet us at the station at Okayama to see that we got the right train to the ferry for Takamatsu - Have to save the details of our adventures for another time. Stella gave us some new experiences and covered a lot of territory in the one evening we were there. These missionaries - they're something else! Ruth Irens met us at the Nagoya station + took us to the Noritake showroom then more shopping + home for supper. This am we're going sightseeing + shopping + then to the train for Tokyo. Then back to the salt mines.

Love to all - Mother - Grandma
